

I have visited Dr Kranthi Vardhan at The Kerala Ayurvedic Care, Basheerbagh for a Relaxing Massage on one of my visits to Hyderabad, India in February 2007. My wife's Father has **PROBLEMS WITH HIS BREATHING AND HAD ALLERGY WITH SEVERE COUGH** for almost many years now. He was on steroids & puffs, which deteriorated his condition further. I discussed this particular case with the doctor and took medicines for 6 months. Now his condition is much better. His energy levels and alertness has increased, the attacks of breathlessness, allergy and Cough have decreased remarkably. My uncle, wife and myself are happy and most satisfied with the treatments. Thank you.
