

I was not able to do any of my daily tasks. Bathing and cleaning my kitchen floor was nearly impossible. I was unable to walk more than 100 yards and had difficulty standing for even very short periods of time. Also my **BACK PAIN** as a result of **DISC PROLAPSE** was starting to affect my ability to get good night's sleep. **A Neuro Surgeon gave me the options of Surgery, taking Drugs to control the pain, or simply Living with the pain.** The constant pain and sleeplessness drove me to do some research on the net and found **Dr. Kranthi** and his Institute **KAC**. I decided that this could be the Final option for me. I am feeling so much better now, I am stronger and have even been able to plant flowers in my yard for the first time in years. I am satisfied with the Treatments, Thank you doctor and the staff.
