

Regarding the Treatment of my Son Shubham – he is 8 years old boy with '**CEREBRAL PALSY**' and Delayed Milestones. We were almost losing hope and reconciling ourselves to the reality after going around almost all the Specialists in India. Thank you Doctor Saab! For assuring Confidence, and finally making our Dream turn real. You are not just a Doctor for us but you are our family and Thank you for your being there for us.

**Raghuveer Singh,**  
**Father of Shubham.**
