

Thank you Dr Madhuri Vardhan for treating my **DUB (Dysfunctional Uterine Bleeding) PROBLEMS**, Tiredness, Weakness, Fatigue and Anemia. I have these bleeding problems from the past 2 years, consulted many doctors, took hormones and all the medicines prescribed by the Specialists, but nothing could cure my problems. I saw Dr Madhuri on a health program in MAA TV and immediately consulted her. With her advice and prescription for 6 months and odd I am happy now and am relieved of the bleeding problems.
