

I Thank Dr Kranthi Vardhan of The Kerala Ayurvedic Care for the Counseling and the Treatment he gave me for **ERECTILE DYSFUNCTION**. Being a Diabetic Patient for the past 22 years, instead of controlling my habits, I used to chew pan, gutkha and was also occasional smoker. My Blood Pressure used to fluctuate and was also gaining weight. My main problem was that I never had penile erection in the last one-year or so. There were muscle cramping in my calf muscles and also severe pain in my neck, shoulder and the lower back.

I took a Rejuvenation Therapy for 4 weeks along with some researched internal medicines, Pathyam and Counseling. It has helped me much. I have improved almost by 80% in a span of 4 months. It was a stage where almost my thoughts and emotions were shattered and was not happy with my life when Dr Kranthi Vardhan showed me new ray of hope in my life. The only thing I can say you is a big Thank you... Thanks a lot...
