

I am Lilly Jansen from Holland and 58 years old. After suffering of **FIBROMYALGIA & RSI (Repetitive Strain Syndrome)** for 6 years I came across the Ayurvedic clinic of Dr. Kranthi Vardhan in Hyderabad last august and decided to do a Panchakarma Treatment. The results were stunning. After 2 times I started to feel hungry like I had never been before; after 3 treatments I felt a kind of calmness in my cells, after 5 treatments I felt like reborn. I completed 8 treatments and all pains and discomforts have gone.

**P.S. Yesterday I worked in the garden. In the past I always suffered from severe backaches in the lower back while doing this kind of work. Yesterday I had no pains at all! Best regards and see you next year.**
