

My hair was long and thick initially and due to changing places and water; I started to lose much of my hair from the past 5 years. There is no Beauty clinic in Hyderabad that I have not visited for the betterment of my hair. But all my efforts were gone waste and I started to get stressed up for the **HAIR FALL**. I came to know about Dr Kranthi Vardhan by one of my friends. After consultation he had advised me the Panchakarma Treatments for 14 days and medicines for four months, which made my hair long and strong with good signs of hair growth. I am really very, very, very happy for all this. Thank you sir, for the best hair treatments.
