

I am 32 years, a Software Professional from Pune, have Stomach related problems from the early age of my life. I was diagnosed '**IRRITABLE BOWEL SYNDROME**' and Gastroenterologist had put me on Steroids. Through the net I came to know about **Dr. Kranthi Vardhan**, after initial talk to him over the phone, I felt that this is the place where I could get some good help in curing my problem. I flew to **KAC, Hyderabad** to know that I was having all the symptoms of '**GRAHANI**' according to Ayurveda. He gave me some Powders, Tabs and Tonics and I was relieved of the symptoms and the disease within 4 months of time. I would thank everybody in helping me to regain my health and energy for the rest of my life.
