

I was a '**HEADACHE**' Person from my Teenage and after my first delivery I ended up into a '**MIGRAINE**' Person completely. I used to have severe Piercing, sudden onset pain continuing for days with changes in my Balance and also Vision. I have suffered for years and finally after coming to **KAC** & undergoing the Specialist Treatments from **Dr Kranthi & Dr Madhuri** am I surviving from the Pain and am free from it completely now. The staff was Excellent and co-operative. My best wishes to all of them.
