

My wife Mrs P.Kamala Devi 58 years have suffered with Severe **OSTEO ARTHRITIS** for almost 3 years. She was on NSAID'S for all these days. I was referred to Dr Kranthi Vardhan by an Ortho Specialist from NIMS Hospital. After an External Therapy for 4 weeks she showed great improvement in her condition. I made a Post Therapy MRI of the Knee Joint, which showed miraculous Changes. After my wife's Treatment I also took Treatments for **SEVERE LUMBAGO SYNDROME** for which I am satisfied and appreciate the Doctor for his knowledge and dedication.
