

I have been a sufferer of **PREMATURE EJACULATION** from quiet some long years. I really felt depressed and I found excuses to avoid having sex with my partner. I have used everything available like Pills, Creams, and Medicines etc with no result at all. I started looking for the best way to end my **PE**; got good information about **KAC**, I went for a consultation with **Dr. Kranthi R Vardhan** and he ensured me great Treatment and I thank him sincerely for changing my life completely.
