

I am 52 years of age, am suffering from **RHEUMATOID ARTHRITIS +VE** and Joint Pains in the Fingers, Shoulders and Knees for the last 8 to 10 years. I took lots of Treatments from many Allopathic Hospitals nearly for a period of 3 years including regular visits to a Physiotherapist but did not get good results. One day I saw an article in 'Andhra Jyothi' Telugu News Paper, after which I approached **Dr. Kranthi Vardhan** garu and **KAC** & took the Specialized Treatments. After only about two weeks of Therapy, I have started getting positive response. And now I am about 80% ok. For this I thank everybody and GOD for showing a right path.
