

I am a businessman always traveling by air; I had a rather unusual problem of **VERTIGO and severe pain and sounds in my ears mainly during Take offs and in higher altitudes.** I have visited my doctors and used much medication, which used to give me only temporary relief. I have **ANNUAL MEMBERSHIP WITH DR KRANTHI'S KAC,** on one occasion I told him about my problems. He gave me treatments for 2 weeks after which all the symptoms are miraculously gone. I thank him for the apt treatment done to me.
