

Thank you very much for the Best Treatments for '**ECZEMA**' for my Father Mr. Rajender Reddy, who suffered with this dreadful disease in the Ankles and Legs for almost 10 years now. He used to have Swelling, Itching and Skin appeared jet black with occasional Bleed. We have seen 'n' no of doctors and used 'n+1' no of products but nothing has seemed to work on a long term basis. It is after we met **Dr Kranthi Vardhan** at **KAC** and after **LEECH THERAPY** that the dry itchy skin has cleared up completely. I have seen a marked improvement, his skin feels softer, less bumpy, his flare-ups are almost nonexistent and he does not get that agitated itchy feeling as often as before. I on behalf of my father support KAC 100%.
